

# Missouri Society of Anesthesiologists

## Friday, March 30

5:30-7:30 pm	Program <i>Gatwick AB</i>
5:30-6:30 pm	Understanding Medical Legal Tools and Strategies: The Key to Tax Reduction and Lawsuit Prevention <i>Daniel J. McNeff</i>
6:30-7:30 pm	The Quest for Alpha <i>Larry Swedroe, MBA</i>
8:00-10:00 pm	MSA President's Reception <i>Lindbergh AB</i>

## Objectives

*Understanding Medical Legal Tools and Strategies: The Key to Tax Reduction and Lawsuit Prevention*

1. Explain how, why, and where legal entities should be used for both lawsuit prevention and income tax reduction.
2. Describe legal tools you will be able to use to own and control your assets in such a way that only you have access to them.

*The Quest for Alpha*

1. Demonstrate that markets are efficient.
2. Explain why investors should focus on asset allocation, fund construction, costs, and tax efficiency.
3. Explain how to build a globally-diversified portfolio that minimizes, if not eliminates, the taking of idiosyncratic, uncompensated risks.

## Moderator

*John Moore, MD*

2:45 pm	<p><b>General Session I</b>  <i>Gatwick AB</i>  Hemostatic Resuscitation  <i>Richard Dutton, MD</i></p>
3:45 pm	<p>Update on Amniotic Fluid Embolism  <i>Barbara L. Leighton, MD</i></p>
2:45 pm	<p><b>General Session II</b>  <i>Lambert A</i>  Pediatric Procedural Sedation in 2012:  Who Owns Deep Sedation?  <i>John McCallister, MD</i></p>
3:45 pm	<p>Sleep Disorders  <i>Pradeep Sahota, MD</i></p>
3:45-4:45 pm	<p>MSA Resident Section Meeting and Election of Officers  <i>Lambert D</i></p>
4:45-5:30 pm	<p>MSA 2<sup>nd</sup> House of Delegates  <i>Gatwick AB</i></p>

## Objectives

### ASA Update

1. Discuss current legislative issues related to ASA.
2. Explain current regulatory issues related to ASA.
3. Describe current organizational issues related to ASA.

### The Anesthesia Quality Institute

1. Understand the need to assess health care and anesthesia quality.
2. Recognize the role of the AQL in advancing this agenda.

### MSA Updates, MSAPAC and Legislative Issues, ASA Updates

1. Discuss important legislative and political activities related to the MSA.
2. Explain the use and importance of the MSAPAC and ASAPAC.
3. Describe how grass roots politics can affect patient safety.

[continued next page](#)

*MOCA, Licensing, and CME: Converging Pathways*

1. Understand the requirements for Maintenance of Certification in Anesthesiology.
2. Understand the relationship between Continuing Medical Education and Performance Improvement Activities.

*Hemostatic Resuscitation*

1. Understand the pathophysiology of hemorrhagic shock.
2. Recognize current best practice in resuscitation.

*Update on Amniotic Fluid Embolism*

1. Explain the diagnosis and pathophysiology of amniotic fluid embolism.
2. Describe effective treatment options for amniotic fluid embolism based on the pathophysiology of this disease.

*Pediatric Procedural Sedation in 2012: Who Owns Deep Sedation?*

1. Discuss the historical development of procedural sedation practice as a distinct multidisciplinary practice in pediatric medicine.
2. Discuss the evolution of CMS and TJC regulations, and the relationship with AAP, ACEP, and ASA standards for sedation care outside of the operating room.
3. Describe the organization of pediatric procedural sedation practice at St. Louis Children's Hospital and the relationship between anesthesiology and pediatrics.
4. Illustrate the future of pediatric procedural sedation and responsibility of anesthesiology.

*Sleep Disorders*

1. Discuss normal sleep parameters.
2. Describe sleep disorders pertinent to anesthesiologists.

6.0 AMA PRA Category 1 Credits™

**Sunday, April 1**

6:00-7:00 am	Exhibit Room Setup <i>Gatwick AB</i>
7:00-12:15 pm	Continental Breakfast/Morning Refreshments/Exhibit Room <i>Gatwick AB</i>
7:00-7:45 am	Exhibit Room Designated Viewing <i>Gatwick AB</i>
7:45-8:45 am	Anesthesia for Airway Surgery <i>Paul Zanaboni, MD</i> <i>Heathrow AB</i>
8:45-9:15 am	Exhibit Room Designated Viewing <i>Gatwick AB</i>

continued next page

9:15-10:15 am	Regional Anesthesia Update <i>Mitchell Fingerman, MD</i> <i>Heathrow AB</i>
10:15 am-12:15 pm	Regional Anesthesia Workshop <i>Mitchell Fingerman, MD</i> <i>Lambert CD</i>
12:30-1:30 pm	MSA Board of Directors Meeting <i>Gateway</i>

## **Objectives**

### *Anesthesia for Airway Surgery*

1. Explain the role of the anesthesiologist in shared airway management.
2. Discuss the use of alternative ventilatory strategies which are essential in airway surgery.
3. Formulate an anesthetic plan which takes into account preexisting medical problems, the impaired airway, intraoperative ventilatory strategies, and postoperative care of these patients.

### *Regional Anesthesia Update*

1. Review the most commonly performed ultrasound guided peripheral nerve blocks (Interscalene, Supraclavicular, Femoral, Popliteal).
2. Illustrate the core truncal blocks employed with ultrasound guided regional anesthesia (TAP, paravertebral).
3. Discuss the most recent and germane guidelines to anticoagulation related to regional anesthesia.

### *Regional Anesthesia Workshop*

1. Review the landmarks and sonoanatomy for the most commonly performed upper extremity blocks.
2. Review the landmarks and sonoanatomy for the most commonly performed lower extremity blocks.
3. Review the landmarks and sonoanatomy for the most commonly performed truncal blocks (TAP, paravertebral).
